

ISMAIL

Date of birth: 25/12/2005 | Nationality: Ugandan | Gender: Male |

Address: [Redacted] (Home)

ABOUT ME

My name is Ismail M. K aged 18years of a height of 168cm with weight of 57kg. My parents own a mixed farm composed both food crops like maize, beans cassava and diary cattle. I was raised on this family farm where we performed different roles accordingly. From my early years, I hand milk the cows and look after calves, feed and help during vaccination of the cows after school and during the holidays. I am passionate about animal rearing and am inspired by modern day farmers in developed countries like Denmark and my dream is to set up a diary farm at my parents home in Kapeeka. I am looking for an opportunity to exercise and acquire hands on practical skills in the field diary farming and this internship will enable me return with both money and skills in hand for both my education and personal project.
