

RUTH N

Date of birth: 04/05/1999 | Nationality: Ugandan | Gender: Female | Address: 256, Uganda (Home)

ABOUT ME

My name is Ruth N, aged 25-year-old student at [REDACTED] Farm Institute pursuing a diploma in Animal Production and Management. I am 68kg and stand at a height of 167cm. I have a strong passion for agriculture, and my academic journey has allowed me to gain hands-on experience with a range of agricultural enterprises, including dairy farming, poultry, piggery, and goat rearing. Among these, my main areas of interest lie in piggery and dairy farming. At our school farm, I am actively involved in the management and care of pigs and cattle, which has deepened my understanding of animal husbandry, farm management, and sustainable agricultural practices. These experiences have enhanced my practical skills and fueled my desire to continue learning and improving in these fields.

I am eager to broaden my knowledge and skills through an internship opportunity in Denmark as its known for its advanced farming systems and innovative agricultural practices. I look forward to learning new techniques especially in areas such as animal welfare, farm management and sustainable production methods, which I can bring back to implement in my community as well as our family farm.
