ABOUT MYSELF

My name is Denham [Redacted] was born on 22th December 1994., am 168cm tall and weigh 66kgs. Agriculture is the backbone of our family and most especially on the side of my mother. I personally grew up with my maternal grand mother owning a mixed farm at [Redacted] District seating on 10 acres of land. We majorly grow food crops and rare animals for quick income generation. Pig for pork production have a greater market around Kampala given a number of so many pork joints and slaughter facilities. We, at a low scale sell about 10-15 pigs monthly, the farm consist of approximately 1000 layer birds which give about 32 trays of eggs daily. This has been our major source of income for basic needs and school fees. During my vacation for form four, I assumed serious work at the family farm and I had intended to work for 2 years before i join University. I had a close participation into the farm activities hence a lengthy experience. However, considering that my grandmother is aging , there should be someone to assume future control of the farm and i saw my self in the right position. Therefore, decided pursue farming as my future career. Am seeking for any available internship placement in Denmark.
