ABOUT ME

My name is AChristine A aged 28 with a strong background in farming, standing 166 cm tall and weighing 62 kgs. I grew up working on our family farm, which is composed of a variety of agricultural enterprises including cattle, piggery, and crop farming. We cultivate maize, beans, and Irish potatoes, providing a well-rounded farming experience that has shaped my passion for agriculture from a young age. Over the years, I have developed a deep interest in animal rearing, with a particular focus on cattle and pigs. Growing up in a farming environment allowed me to gain firsthand experience in various aspects of farm management, from animal husbandry to crop cultivation.

I am excited about the opportunity to continue learning and growing and as Denmark is renowned for its advanced agricultural systems, represents the ideal place for me to acquire the skills and knowledge necessary to achieve my goals. This internship experience will equip me to bring positive changes to my farm and contribute meaningfully to my community.
